with the jury wheel?

Q. Yeah.

State of Texas v. Eric H. Holder, Jr., et al. 1:11-CV-00128
Gloria Martinez 4/17/2012

A. They have a status of FPCA. Yeah. And, of course, it can go to canceled, so...

Q. When -- A -- it would be A for active means what?

A. It means that the last time the voter registrar sent a voter certificate to the address that they've got for the voter, the card did not come back as undelivered or undeliverable. So the voter registrar has to assume that it reached the voter and, therefore, that the mailing address, whatever they have for the voter, is correct.

Q. And S for suspense, what does that mean?

A. It means that the last time the voter registrar sent a voter certificate to the mailing address they have, it got returned as undeliverable, and a notice of address confirmation is sent to the only address that the voter registrar has. That notice of address confirmation is eligible to be forwarded by mail, whereas the voter certificate is not supposed to be forwarded by the post office.

So once that notice of address confirmation reaches the voter, we are hoping that the voter will respond by giving the voter registrar their new mailing address. But until that time or until they go vote and give their new address at that time, until that time they remain in suspension for about two federal election cycles.

Q. And then after two federal election cycles, what happens?

A. If there's been no voting activity on behalf of the voter and the voter has not given the voter registrar their new address, after two federal election cycles, the suspense record is canceled.

Q. So the S becomes a C?

A. Correct.

Q. And canceled includes anyone who is in suspense who did not respond within the -- by two federal election cycles. Is there anyone else under C?

A. Yes. Sometimes people request on their own to be canceled. Sometimes people register in another county and, therefore, the record in their previous county will be automatically canceled. Sometimes a voter moves outside of the State of Texas and registers in another state. That state will give us notification, and then their Texas record will be canceled.

There can also be reasons for new felonies that the voter reg- -- that the voters don't deny or don't respond to our request for finding out if they really, you know, were charged with a felony. And if there's no response in those 30 days or if they did get charged with a felony, then they're canceled.

Records get canceled due to -- a deceased person,

you know, can get their record canceled.

Q. And -- and are there fields that relate to these cancellations in the T.E.A.M. database, meaning fields relating to felonies, fields relating to deceased?

A. There are reasons that the users should be selecting. If they select the correct reasons, then, yes, they can track the various reasons that a record -- that records were canceled in their county. For which the records were canceled in their county, yeah.

Q. Hold on one second.

A. Sure

Q. Can you explain to me what the FPCA designation does? And -- and -- or actually, first tell me what the code is for.

A. Federal postcard applications. We assign a source code of 90 to that. I don't know --

Q. Ninety? The number 90?

A. 9-0. I don't know why we assigned it a 90. I don't know. But it has a source code of 90. It gets processed, we fill in the necessary information that we get in the federal -- well, the users will enter that information into the federal postcard application screen. And it will automatically get assigned the source code of 90 because it is a federal postcard application, because they use the screen for federal postcard application.

Anything else?

Q. Are you familiar with a code L in the voter status code database? Voter status code field?

A. L. I don't know if the background ever has an L. I don't know.

Q. How about a code -- well, Code S -- a Code V as in Victor?

A. No. No. Not currently. There's no code that says \mbox{V} for voter in the status, no.

Q. All right. Going down this list, the last one here says Spanish surname FG.

Can you tell me what that field is?

A. Spanish surname flag.

Q. Okay.

A. There is a box, I guess, that can be check marked when -- when we're requesting public information -- when we're going through the steps for requesting public information report, and one of them says Spanish surname flag.

And if they check mark that box, if the user, one of us or the user check marks that box, then whatever information is getting drawn out, if that record's surname happens to fit the criteria from the Census Bureau as being a Spanish surname or Hispanic surname, then it has the flag of S for Spanish surname.

It's a little more complicated than that because you're dealing with multiple information. This is just one of the fields in the enforcement action that tells you what type of action we're taking. Depending on the dates of that action and where it is in the process would determine the license status of not eligible or eligible. Q. So the information there would be captured under License Status in a summary form? A. No. The information here is just based on that particular enforcement action and where it falls under the statute. If it's under a revocation or a disqualification. Based on the dates of that enforcement action when it began and what the current date is, when it ends, what the status is of that enforcement action going through the process would then determine what the record status, the license status is of the entire license. Q. And that would get into Field 340, then?

I cannot Q. (By Ms. Maranzano) I'm looking for a general summary of what happened with the bill. A. I mean, the House process is the House process. The bill gets filed, gets sent to committee, gets voted out of committee, it goes to calendars, goes the Floor, gets passed. In the Senate, it gets comes to over to the Senate, then just like every bill,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	This particular bill, we tried to move one day, when we thought we had the necessary votes, and we were not successful, and the bill died. Q. Okay. So I'm going to ask you a couple of questions about that process as you've described it. I believe that you testified that the Lieutenant Governor reviews a bill, after it gets voted out of the House, and than refers it to committee? A. Yes, ma'am. Q. Does every bill that gets voted out of the House get referred to some Senate committee? A. Yes, ma'am. Q. And does the Lieutenant Governor solely is that decision of which committee to refer it to solely that of the Lieutenant Governor's? A. Based on the current Senate rules, yes. Q. And you mean the 2011 rules? A. 2007, but even now in 2011, yes, ma'am. Q. Okay. And you said that the Senator, Senator Fraser notified the committee on State Affairs that he wanted to sponsor this bill? A. Yes, ma'am.

FREDERICK: I'll just object to the extent it mischaracterized the testimony. But to the extent we're talking about the purpose of the bill, you may answer the question. A. The purpose of the bill was to ensure that citizens, registered were voting were not committing fraud. There was no in-person voter fraud. So whatever that constitutes, this bill was trying to prevent. Q. (By Ms. Maranzano) Okay. So what I'm asking you now is: What do you believe that that constitutes? As somebody who was the chief of staff for the author of the bill, what do you think that constitutes? MR. FREDERICK: I will object, based on privilege, the extent that this seeks a subjective motivation, a subjective thought or a mental impression somehow incorporated in the text of the bill. And I	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	in-person voter fraud. This quote probably relates more to Senate Bill 363 than it does to Senate Bill 362. So, I mean, we have to read the whole press release in context. Q. Uh-huh. A. I mean, but in-person voter fraud is someone showing up who's not supposed to be there, who is not a citizen of our country, who has someone else's ID, who has falsified voter records and is voting fraudulently, and that's what Senate Bill 362 was trying to do. Q. Okay. So how does Senate Bill 362 deter noncitizens from voting? MR. FREDERICK: I object to the extent it calls for speculation. You may answer if you can. A. By requiring someone to show ID, if they're not a legal citizen, they wouldn't have that ID, necessarily, and then they wouldn't be able to vote. Q. (By Ms. Maranzano) Do you know how many forms of ID listed in SB 362 a noncitizen is able to obtain? A. I do not. Q. Did you look into that when you were working on

That the Secretary of State's Office uses --7 do Spanish surname with regard to staffing of precincts 8 8 with --A. -- in addition to the Spanish surname? No. 1 9 A. We did. 10 mean, we use -- my recollection is, that we used the 1.0 Q. -- Spanish-speaking poll workers? 11 Spanish surname list due to an agreement with the 11 A. Yes. We started to do that in maybe 2003, '4, 12 Justice Department, that was entered into the mid '80s, 12 something around -- around that time, whereas basically, 13 regarding sending out notice of Constitutional 13 just to help the county election officials identify 14 amendment. So we are following the practice that's 14 those precincts that would need Spanish-speaking poll 15 15 workers. We went ahead and shared the results of our precleared. 16 Q. I see. How many times have you used a Spanish 16 Spanish surname list to help them identify precincts. 17 surname analysis in conjunction with -- or how many 17 Q. We did start to using it to help 22 voter registration data, including a breakdown of 22 the counties identify Spanish surnames. But if it was a bill of statewide surname. 4 4 Q. MORTARA: Ms. McGeehan, you can answe Q. So you can never remember, sitting here today, 8 8 a time, with a statewide change, where you did a Spanish that question with respect to the --9 9 surname analysis? Ms. Westfall, the problem I have with this 10 A. Redistricting is kind of a whole different 10 question is, it incorporates within the question the 11 11 animal, so not talking about redistricting, but just positive advice that he would get elected or she would 12 sort of a -- you know, like the bill I mentioned earlier 12 get elected. And then the additional problem is, we 13 to change the time period when the early ballot board 13 have waivers here for voter ID purposes, and I'm not 14 could meet, we would submit that, and we would not 14 sure we have waivers for other purposes. 15 provide any detailed analysis about the number of 15 And so I think the general question, did 16 registered voters in the state or the number of Spanish 16 you ever give advice to a legislator about the 17 17 likelihood of a Hispanic legislator getting elected is a surname voters.

A. As best as I can remember the meeting,
Dr. Potter, you know, ran through a couple possible ways
that they might be able to do the analysis. And I think
when he heard of the information that DPS had -- and I
think in the meantime -- okay. We had already gotten
the request from DOJ asking -- I'm just trying to get
the time line straight in my head.

Okay. So we had already had received the Justice -- so the Justice Department had probably already asked us to be looking at the -- or comparing the DPS race data. So we were starting to analyze what we could do with that. And I think once we shared that with Dr. Potter, I think he decided that might be more fruitful than the kinds of analysis that he could do with the census information and things like that.

- Q. Did Dr. Potter make any suggestions or offer something he thought you all should be doing that you decided not to do?
 - A. I don't remember that.
- Q. When you had your conversation with Dr. Potter, was it only about race, or was it also about trying to look at Spanish surname?
- A. I think it also was about race. Spanish surname or -- could you restate your question, please?
 - Q. Well, I understand from your previous testimony

- people for what percentage of them were Spanish
 surnamed; you didn't need to look at DPS's race data to
 figure that out? In fact, they weren't even in the DPS
 database, correct?
 - A. Well, and we sent that to the Justice Department in September. We did that --
 - Q. With the Spanish surname information?
 - A. Yes.
 - Q. Okay. And so this is -- these letters that we're looking at in Rodriguez 5 have more to do with an attempt to figure out the race of the people who might not have ID?
 - A. Yes.
 - Q. So at this point, you've got the Spanish surname figured out.
 - A. We've got the Spanish surname data figured out.
- 17 Q. Oka
 - A. Right, and then the Justice Department asked us to, sort of, see if we could further analyze the voter data by comparing it to the DPS data with the -- whatever racial classifications they had.
 - Q. And at that time, were you looking at Hispanic as a racial classification, or had you stopped looking at Hispanics?
 - A. Well, DPS had that as a -- as a category, so we

- that when you were looking at trying to identify Spanish
 surnamed registered voters who might lack ID --
 - A. Uh-huh.
 - Q. -- that you were comparing your registered voters with DPS and looking at their Spanish surnamed
 - people; is that right? Or you were just looking at all the Spanish surnamed flagged people in your database,
 - and the ones you could not find in DPS?
 - A. Well, and I remember we didn't -- we didn't do any analysis of DPS data -- and I'm just trying to build
- a timeline here. We sent the Justice Department thedata on the voters that we could identify that didn't
- have a driver's license. The Justice Department came
- back and said, oh, but we know that DPS has information
- on the driver's race. Can you run that information
- against your voter information? And that request, I
- think, came in around the same time as this letter from
- the demographer, or the request from Senator Ellis. And
- 19 I'm not sure how DPS -- how they identified race in
- their data.
 - Q. Uh-huh. Okay. So with respect to Spanish surname, you could always have run -- once you figured out who was in the voter database who you couldn't find in DPS, which is possibly a list of people who lack voter ID, you could always have looked at that group of

- looked at it. Now, that was on -- that was just beginning, and I left the agency before that analysis had concluded.
 - Q. Okay.

 - A. You know, as director of Elections, you know, my duty was to implement the law, and, you know, it's not my duty to the second guess the law. And so for photo ID, the stated intent was that this is going to, you know, strengthen our voter laws. It's going to, you know, increase confidence in the process because there's going to be an affirmative identification at the polls.

So in that sense, the certificate alone probably doesn't meet that goal. You know, I'm not the Legislature, so, you know, so I guess that's my answer, if you let me get away with that.

Q. (By Ms. Perales) I won't. I have to object as nonresponsive, because I'm asking for your opinion, and maybe the first and last time I'll ask. I mean, I have to ask you for your opinion. And you spent many, many years in the Office. If there's anybody in the state of Texas who is an expert on the operation of elections and all things surrounding elections, including the acceptance of voters for voting, it's you.

A. My opinion is, I think both sides of the issue are a little exaggerated and overstated and the truth is probably somewhere in the middle.

- Q. And so with respect to your opinions specifically on the removal of the voter certificate from the list of ID that should be presented for voting, can you think of a reason, based in reality, to remove the voter certificate from the list of ID in order to prevent voter fraud?
- A. Well, I mean, as a practical matter, what we hear from election officials is most voters don't present it anyway.
- Q. So is there a reason to remove it, in your opinion?
- A. I mean, it's hard to examine that without knowing that -- if the mandate is photo ID, then there's a reason to remove it.
- Q. All right. But putting aside SB 14, our current law, which we have a voter ID law in Texas, includes the voter certificate as a form of ID for voting, and you testified you can think of one very specific incident in which a son used his father's voter certificate after his father passed away to vote in his place. Knowing everything you do about Texas election administration, and this one very specific incident and

two other possible incidents where you don't know whether the certificate was involved --

A. Right.

Q. -- what is your opinion or do you have -- well, I'm not going to ask the other opinion, because you'll tell me you don't. But in your opinion, is there a valid reason, based in reality, to remove the voter certificate from the list of acceptable ID in order to prevent fraud?

MR. MORTARA: Objection, asked and answered.

Q. (By Ms. Perales) It's a yes or no question, and so I need a yes or no answer.

A. Yes. I think there would be a reason if the stated goal is to increase confidence in the process and to ensure the public that people aren't voting fraudulently, whether it really happened in reality or not aside, but if the thought is we want to promote confidence in the process and the rules in the system, then, yes, I think that some folks might feel more confident about voting if they knew that only these governmental photo IDs are allowed at the polling place

Q. Have you had received any complaints from voters who said they lacked confidence in the system because the voter certificate could be used for voter

identification?

A. No.

MS. PERALES: These are my last questions, the Dechert folder.

(Rodriguez Exhibit 13 marked for identification.)

- Q. (By Ms. Perales) You have been handed what the court reporter has marked Rodriguez Deposition Exhibit 13. I'm going to ask my last questions of you regarding the Public Education Plan under HAVA.
 - A. Okay.
- Q. Did you, when you were at the Secretary of State's Office, work on the current Public Education Plan?
- A. I gave some feedback on this RFP, but I was not the primary author or driver of it.
- Q. Was the Public Education Plan developed in-house at the Secretary of State?
- A. The request for a proposal was.
- Q. Okay. And when you say request for a proposal, you mean Rodriguez Deposition Exhibit 13, yes?

 - Q. Okay. And what's the difference between the RFP and the Public Education Plan under Senate Bill 14 because I noticed you made a distinction, so I wasn't

1 sure. 2 A. Well, I mean, the RFP is basically, it's 3 asking for proposals to help the Secretary of State 4 develop a statewide voter education program. So the 5 actual voter education program is going to be different 6 than this. This is just sort of setting out, sort of, 7 the minimum requirements that the office wanted to see 8 in responses. 9 Q. Okay. And so the responses to the request for 10 proposal would be, in essence, this is how it should 11 look, the Public Education Plan should look? 12 A. I don't think we had a preconceived notion as 13 to how it would look. I mean, we had certain 14 requirements we wanted see them meet, but I think they 15 were also looking for creative solutions as to how to 16 get the word out and educate voters. 17 Q. Okay. 		Frequently, the prosecutors identify additional

		Q. So is it fair to say the investigator would stay

	19	A. Ideally, yes.

Q. All right. And you said something in your	24	of the election code prosecutions?
	A. I would say it goes back to, I think, 2002. Q. Are you aware of any voter impersonation investigations, prosecutions, that occurred prior to 2002? A. No, sir. Q. You talked a little bit about the jurisdiction of the SIU. What jurisdiction does the special investigations unit have in the State of Texas? A. Do you mean specifically towards elections or in the broader sense? Q. Elections. A. Chapter 273 of the Texas Elections Code discusses the investigations of election code violations. If you have a single jurisdictional election, the jurisdiction may rest with the local district or county attorney. If you have multi-jurisdictional elections, then the jurisdiction may rest with the Texas Attorney General's office. Chapter 273 authorizes the Texas Attorney General's office to conduct investigations and prosecutions of either type, working in conjunction with local DAs or law enforcement. Q. So when you say, "it authorizes them," does that mean they have direct jurisdiction? A. Yes, I believe the statutory language says they 66 have concurrent jurisdiction. Q. Are they authorized to take the lead on any of these particular investigations, prosecutions? A. I believe that in the case of multi-jurisdictional elections, the answer would be yes. Q. All right. And I believe you've answered this in a general way. Does the SIU prosecute the cases that investigates? A. Oh, no, sir. Q. So let's talk about that structure a little bit. Your unit, the SIU, conducts the investigations. How does it then, shift to the prosecution stage? A. At the completion of our investigation, we would prepare an investigative packet with statements, reports, supporting documentation, it could be recorded interviews, those kinds of things. And that would be presented to the local district attorney, county attorney or to the criminal prosecutions division. Q. And did you produce these election investigation packets to your attorney, to your attorney in this case? A. In the scope of this? Q. Yes.	A. I would say it goes back to, I think, 2002. Q.
